

Model CT

The CT Test Stand is used for compression and tension testing applications up to 500 N/110 lb/50 kg. Includes test stand, handwheel, feet, 10-32 screws (for GS/GTX) and wrench. GL test stand mounting screws are included with gauge.

Part Number	List Price
52751-1885	\$315

The CT stand aligns perfectly with the Dillon Model GL Force Gauge. Other gauges require the tension alignment accessory if the stand will be used for tension tests. The tension alignment accessory has both M6 and 10-32 threads to connect with most popular fixturing.
